KS2 outcomes – average progress score

There is no ‘target’ for the amount of progress an individual pupil is expected to make. A school’s progress scores in Reading, Writing and Maths are calculated as the average of its pupils’ subject progress scores. These scores give an indication of whether, as a group, pupils in the school made above or below average progress in a subject compared with pupils with similar starting points in other schools.

- A score of 0 means pupils in this school, on average, do about as well at Key Stage 2 as those with similar prior attainment nationally.
- A positive score means pupils on average do better at Key Stage 2 than those with similar prior attainment nationally.
- A negative score means pupils on average made less progress than other pupils nationally with similar prior attainment.
